## B.C. HOSPITALS ASSOCIATION CONVENES HERE

Concerted Opposition to  
Proposed Reduction of Municipal  
Per Diem Rate Urged

An appeal to the hospitals of the  
Province to take concerted action  
against any movement on the part of  
the Union of Municipalities either to  
increase their representation on hos-  
pital boards or to reduce the per diem  
rate paid by the municipalities for  
increasing the Federal Government prevent the  
flight of export wheat through  
Vancouver this year that Canada has  
known, his prediction being based not  
only on the big Alberta crop, but on  
the fact that the big grain handling  
organizations on the prairies now con-  
trol elevators in Vancouver.

The predicts there will be the greatest  
movement of export wheat through  
Vancouver this year that Canada has  
known, his prediction being based not  
only on the big Alberta crop, but on  
the fact that the big grain handling  
organizations on the prairies now con-  
trol elevators in Vancouver.

The new railway rates, he believes,  
will also be an advantage to the  
Columbia ports as well as to the  
Canadian ports. One of the effects of  
the new tariff he thinks will be that  
less Canadian wheat will move by way  
of Buffalo, and more by way of Que-  
bec and Montreal.

The new rail rates will help Quebec  
and will eventually lead to winter  
shipment from Halifax and St. John's,  
he said.

The party found business conditions  
generally throughout the West unsatis-  
factory.

### HUDSON BAY RAILWAY

Sir Joseph Flavelle said the demand  
for the Hudson Bay Railway by the  
people of Central Canada had become  
refuse completion of the road any  
longer. He doubted if it would ever  
be of great value in the export of  
grain from Central Canada, but it  
would open up great mineralized areas  
in Northern Manitoba and lead to the  
settlement of that part of the country  
and would be justified for that reason.

### PROGRESS OBSERVED

We have come to look over the  
country," remarks Mr. Logan. "We  
find it good to look upon. We find  
improvements and developments  
everywhere we go.

"The country generally is in a pro-  
gress condition, and Canada is making  
real progress. Of that there is no  
question. What we do need is a greater  
population. We are the only country in  
the world which is coming back to the  
position in which they are talking and  
thinking about Canada."

### MANUFACTURES GAIN

Manufacturing went on Mr. Logan  
in summing up Canadian conditions.  
was in better shape than at any time  
since 1920.

"In fact," he added, "we have a great  
country, and we should all be opti-  
mists, not to the point of being in  
a state of facts, but to the point of known  
confidence. When a people are in a  
good frame of mind a country develops and  
we have cause for cheer at the pros-  
pects for Canada."

## PARACHUTIST HAD NARROW ESCAPE

At New Westminster He  
Landed in Tree and Fell to  
Ground

New Westminster, Sept. 8.—Captain  
Lestrage narrowly escaped serious if  
not fatal injuries when he made a  
parachute drop at the Provincial Exhibi-  
tion. His balloon rose almost perpendicu-  
larly after the take-off, there being prac-  
tically no wind. Releasing the para-  
chute, Captain Lestrage fell within a  
few yards of where he had ascended.  
Striking the tops of fir trees, he made an  
effort to hang to them as his para-  
chute collapsed. Eventually he fell about  
fifty feet to the ground.

For several minutes he lay stunned,  
but it was found his only injury from  
the fall was a dislocation of one wrist.

## SEARCH FOR MISSING MAN IS FUTILE

Vancouver, Sept. 8.—Although Indian  
trackers were called into service yes-  
terday in an effort to trace Fred Allison  
Graham, former Vancouver bank clerk,  
who disappeared Sunday afternoon  
when he went fishing at Spusum Creek,  
a short distance from Yale, B.C.,  
no further word has been received re-  
garding the missing man.

It is with the opinion of those who  
know the locality that Graham had in-  
to Spusum Creek.

## ELEVATOR PLANS ARRIVE IN CITY

F. Carter, designer of the firm of  
Metcalfe & Company, who drew the  
plans for the Panama Pacific Grain  
Terminals Limited Osgoode Point  
elevator, was in the city to-day and  
had an interview with Mayor J. C.  
Penney and some of the members  
of the elevator committee. Mr.  
Carter brought detailed plans and  
specifications of the elevator building  
with him, it is understood, and  
will be placed in touch with C. D.  
Howe & Company, the firm engaged  
by the city to inspect the plans and  
supervise the work. C. D. Howe is  
expected in the city in person  
shortly.

## WINDSOR AEROPLANE CREW IS NOW URGED TO CANCEL FLIGHT

Committee Asks Two Men to  
Return From Newfoundland  
to Ontario

At Last Reports Plane Was  
Being Prepared For Atlantic  
Attempt

Windsor, Ont., Sept. 8.—In view  
of the disaster which overtook  
the Maine-Rome monoplane Old  
Glory and the fact that the London  
Carling apparently has dis-  
appeared, the committee in charge of  
the Windsor-to-Windsor flight of  
the monoplane Royal Windsor to-  
day wired C. A. (Duke) Schiller  
and Phil Wood at Harbor Grace,  
Newfoundland, asking that they  
cancel their flight and return home.

The committee in its telegram  
told the fliers the matter would  
be left entirely to their discretion,  
but that it was the unanimous be-  
lief of the men that the flight  
should be called off.

Frank Wilson, member of the  
Ontario Legislature for Windsor East, to-  
day published an open letter in which  
he demanded of the Border Chamber  
of Commerce that steps be taken to  
bring the fliers back home. He also  
sent a message to Premier King asking  
the Federal Government prevent the  
flight of export wheat through  
Vancouver this year that Canada has  
known, his prediction being based not  
only on the big Alberta crop, but on  
the fact that the big grain handling  
organizations on the prairies now con-  
trol elevators in Vancouver.

The predicts there will be the greatest  
movement of export wheat through  
Vancouver this year that Canada has  
known, his prediction being based not  
only on the big Alberta crop, but on  
the fact that the big grain handling  
organizations on the prairies now con-  
trol elevators in Vancouver.

## PAS-FLIN FLON RAILWAY SOON

Winnipeg, Sept. 8.—The Manitoba Free Press to-day says: "Actual construction of a railway from the Pas to the Flin Flon Mining areas in the North."

Territory of Manitoba is a strong possibility of the near future, according to information secured from Canadian National Railway officials last night.

"A charter for the construction of a railway from the Pas to the Flin Flon was granted by the Manitoba Government in 1924 and renewed in 1927, calling for construction from a point on the Canadian National Railway Line at the Pas into one of the richest mining areas in the North."

The lecturer stated that the modernist bodies within the Anglican Church were expected to accept the revised edition, but it is not obligatory for the older sects to conform to it. In fact, he said, the book to be used will be determined by the different parishes themselves.

In opening his address, the Dean thanked the members of the Men's Guild for the reception they had accorded him on his return from his trip to England.

He commanded the members for the manner in which they had upheld their watchwords, "Service and Fellowship."

Dean Quainton said he was pleased to note England is just as beautiful as ever.

He could find no evidence of the much-talked-of conditions of defeat and decay. On the contrary, the country seemed to be standing up with wonderful morale, despite the hardships it has gone through, he said. Indeed, the Dean continued, England is showing that fine Anglo-Saxon stability and moral courage which will help him to lead the world spiritually and intellectually after the may have lost economic predominance.

Preceding the lecture, the chairman, W. J. Alder, speaking on behalf of the Men's Guild of the Cathedral and representatives from outside parishes, gave the Dean a hearty welcome, and announced that the banquet was the first of a series to be held under the auspices of the guild.

## Brentwood

Brentwood, Sept. 8.—Mr. and Mrs. L. Stevenson are spending a holiday visit in Seattle.

Mrs. Amer and her small sons have returned to her home in Seattle after visiting for some weeks with Mrs. Amer's sister, Mrs. Geo. Watt, Durand Road.

Miss Mary Clark of Victoria is spending a week as the guest of Mrs. Alma Hoyer, Verdier Avenue.

Mr. and Mrs. Knowles and their son, Andrew, who have spent the summer months at the beach, have returned to their home in Victoria.

Misses Freda and Gladys Durrance have returned from an enjoyable holiday spent with relatives and friends in Vancouver.

Miss Flossie Woodward left on Saturday for Vancouver.

Mrs. T. Peden and children, Eileen and Gordon, have returned home from Vancouver and Marpole, where they were the guest of relatives.

D. McIntosh, G. McIntosh, J. White and B. Whitelaw of Vancouver spent the holiday week-end visiting in the district.

Gordon Thomson of Vancouver is the guest of Mr. and Mrs. J. Osborne, Verdier Avenue.

Alderman and Mrs. Woodward and

THE STORY OF QUALITY WITH CARNATION BEGINS the COW

el to which the whole world looks for newest thoughts in the handling of milk.

Safety, purity, and double-safety—these are yours for the price of a tin of Carnation milk. Use Carnation for cooking to get better results and in place of cream at one-third cream's cost. Order from your grocer several tins or a case of 48 tins.

A QUARTER of a century in the milk business has taught us that milk quality must begin with the cow.

And so the Carnation Milk Farms, with their world-famous herds of Holstein cattle, seek to encourage and provide better dairy stock.

But Carnation does not stop at "better cows." Carnation seeks "better farms" and the Carnation Field Force spends its time inspecting farms and educating farmers. Carnation seeks "better methods" and the Carnation Condenseries are mod-

ernized to handle the latest in scientific methods.

### B.C. Penitentiary Report is Denied

Vancouver, Sept. 8.—There is no mention in the report that Federal officials are planning to construct an ad-

ditional penitentiary in British Columbia, according to Brig.-General W. S. Hughes, D.S.O., of Ottawa, Dominion Superintendent of Penitentiaries, who is in Vancouver on his annual inspection tour.

General Hughes denied the report that officials were making reconnoisseances of Howe Sound in order to find a suitable site for a penitentiary.

### INFANTILE PARALYSIS DEATH IS REPORTED

Fatal Case at Rossland; New  
Cases at Trail and Nelson

Public Schools at Kaslo Closed  
as Precautionary Measure

Trail, B.C., Sept. 8.—Trail yesterday had the first new case of infantile paralysis reported in eleven days and after the cases under treatment had been reduced to three.

In view of the new infection, the health authorities have again set back the date of opening the schools, making it September 19 at the earliest.

**CASES IN SLOCAN VALLEY**

Nelson, B.C., Sept. 8.—Within a few days of the death of a seventeen-year-old boy with infantile paralysis, six year-old boy in the same family was declared yesterday to have that disease, and he is now under treatment in the isolation hospital at Nelson. This is the Slocan Valley's third case.

**DEATH AT ROSSLAND**

Rossland, B.C., Sept. 8.—The twenty-year-old youth who was found Tuesday to be suffering from infantile paralysis, died yesterday. Rossland's third death out of a total of eleven cases.

**KASLO SCHOOL CLOSED**

Kaslo, B.C., Sept. 8.—Kaslo health authorities have closed the schools temporarily as a precaution against infantile paralysis, though no case has yet been known around Kootenay Lake.

"Undue prominence has been given to the furtherance of the prosecution account of the accused being a Catholic priest," replied the Alabama lawyer.

"Any man, black or white, Christian or Jew, gets a fair trial in Alabama," queried Mr. Orr.

"Not if they have got a Ku Klux Klan jury," said Willette.

JURISDICTION QUESTIONED

In the opinion of the witness, the indictment, warrant and proceedings were void because they issued from a white court which had no jurisdiction.

Although Mr. Orr objected, Judge Cayley, the extradition commissioner, allowed Mr. Maitland's question asking Willette whether he knew any reason for the prosecution by the State of Alabama.

A letter from the Junior Red Cross Society asking the co-operation of the society in the matter of giving special hospital rates for cases coming under the society's purview was received.

After some discussion it was decided to inform the Junior Red Cross of its sympathy in the work, but that the association had no power to reduce hospital rates.

After the hearing of the secretary's report and the financial statement, committee were appointed.

Mrs. C. W. Rhoades, president of the Jubilee Hospital W.A., took the chair for the Conference of Women's Auxiliaries which was a feature of the morning session. Reports of their activities were given by W.A. of Chilliwack, Prince George, Campbell River, Royal Jubilee and St. Paul, B.C., St. Paul, Vancouver, King's Daughters' Hospital, Duncan, all showing the invaluable work done by the auxiliaries for the hospitals. Supplying of linen, furnishing, hospital equipment and sewing had been supplied by these bodies of energetic and devoted women. Much social service work had also been accomplished.

After the hearing of the committee reports, the women guests of the Rotarian Club at luncheon. This afternoon, after the hearing of committee reports, they will visit the Quarantine Station at William Head as the guests of Dr. C. P. Brown.

### TRAIN ON WHICH TWO WERE KILLED HAD RIGHT OF WAY

C.P.R. Officials at Calgary  
Make Statement on Col-  
lision at Dalemead

Calgary, Sept. 8.—The westbound second section of the Canadian Pacific Imperial Limited train on which Engineer J. W. Fay of Calgary, and Fireman E. W. Wintfield of Calgary, met their deaths in a head-on collision early yesterday morning at Dalemead, twenty-four miles east of Calgary, had the right-of-way over the eastbound section, with which it collided, according to a statement made by local Canadian officials this morning. Ordinarily all eastbound trains have the right-of-way over westbound trains of the same class, but there is a provision in the regulations which states train orders take precedence over the right-of-way regulations. The railway office says both trains had been issued orders to the effect that the westbound train would have the right-of-way.

INSTRUCTIONS GIVEN

According to C.P.R. officials, the two eastbound Imperial Limited trains had received instructions to take the sidings at Indus and Dalemead, thus giving the right-of-way both to the first and second section of the westbound Imperial Limited. The eastbound first section took the siding at Indus, but the second section failed to take it at Dalemead, the officials said. Beyond that, they refused to make any statement until after the inquest, set for Saturday evening.

According to local train schedule, both the eastbound and westbound trains were running on time.

tunes not in gold but in healthy minds and robust bodies.

PRESIDENT'S ADDRESS

In replying to the address of welcome, George Haddon, the president of the association, confessed to a great pleasure at being near "the purse-strings of the Province."

In his annual address, Mr. Haddon referred with regret to the death of Hon. John Oliver, who had always been a keen and kindly interest in the hospitals of the Province, and whose passing was a distinct loss to the association.

Touching upon the work of the past year the president stated that the association executive had strongly opposed the attempt made by municipalities of the Lower Mainland to secure larger municipalities to meet the increased costs than the set at present demands. They will also oppose any attempt made by the municipalities to secure a reduction in the per diem rate now charged to municipalities for their patients. He urged the association to unite in fighting either of these changes should any concession attempt be made to an attempt to have the Hospital Act, in the event of the Union of Municipalities pressing its claim.

WILL OPPOSE AMENDMENTS

"This association has fought a long time for a more equitable arrangement of payment from the municipalities, particularly from those districts wherein no hospital is established, and we must prevent any amendment to alter the present act unless it is to increase rather than to decrease the per capita rate," he said.

The president's report also stated that "the question of state health insurance which was referred to the executive committee for its consideration, was abandoned for the time being, it being the opinion of the members that the present time was not opportune to bring this matter forward."

DEPLORE NANAIMO SITUATION

The present situation in Nanaimo was deplored by Mr. Haddon in the following terms: "Surely the citizens of Nanaimo must realize by this time that their hospital is an institution which cannot be maintained alone in dollars and cents and that they will come to the assistance of the directorate and furnish the necessary funds to complete the building in order that proper and up-to-date hospital service might be given to the sick and needy of that district."

A letter from the Junior Red Cross Society asking the co-operation of the society in the matter of giving special hospital rates for cases coming under the society's purview was received.

After some discussion it was decided to inform the Junior Red Cross of its sympathy in the work, but that the association had no power to reduce hospital rates.

After the hearing of the secretary's report and the financial statement, committee were appointed.

Mrs. C. W. Rhoades, president of the Jubilee Hospital W.A., took the chair for the Conference of Women's Auxiliaries which was a feature of the morning session. Reports of their activities were given by W.A. of Chilliwack, Prince George, Campbell River, Royal Jubilee and St. Paul, B.C., St. Paul, Vancouver, King's Daughters' Hospital, Duncan, all showing the invaluable work done by the auxiliaries for the hospitals. ### A STORY OF SUCCESS

New York, Sept. 8.—Forty-five years ago Charles G. Black, then fourteen years old, got a job with the Standard Oil Company, putting wire handles on cans. Now he is president of the Standard Oil Company of New Jersey, recently formed \$200,000,000 operating subsidiary of the Standard Oil Company.

p.m. to-day Victoria time). The plane carried 1,270 gallons of gasoline which Bertand and Hill estimated would keep them in the air for fifty-six hours and give them a cruising range of 5,000 miles, 500 miles more than their planned course from New York to home.

The gasoline supply of the Old Glory, as estimated, was sufficient to permit it to remain in the air until 8:22 Eastern Standard Time to-night (5:33 p.m. to-day Victoria time).

The plane left Old Orchard, Maine, at 12:33 p.m. Eastern Standard Time, Tuesday (9:33 a.m. Victoria time).

## THE COST OF STUNT FLYING

MANY INFLUENTIAL NEWSPAPERS on this continent and in Europe are asking how long it will be before suitable action is taken to put an end to what they call stunt flying. They see no value in it and they deplore the reckless waste of human life which it entails. Perhaps the Norfolk Virginian-Pilot, in its reference to the Dole race from California to Hawaii, has selected the best means of showing the futility of transoceanic competitive flying. It notes the cost in that case as follows:

Four racers alive and victorious.  
Three racers killed in the preliminaries.  
Five others missing for nearly a week and probably dead.  
Two rescuers missing four days and probably dead.

Value of prizes won, \$35,000.  
Cost of race in money value of machines lost, preparation for flights, etc., more than \$300,000.  
Useful contribution to aeronautics, zero.

This was the information available to the journal in question when it dealt with the subject in its issue of August 23. No trace has been found of the five racers or the two would-be rescuers, so the toll of the race, its preliminaries, and in attempts at rescue amounts to ten lives. And, as the Norfolk newspaper points out, aeronautical science has not been advanced in the least, in spite of the enormous cost.

Added to the tragedy of the Pacific is the new tragedy of the Atlantic. All hope has been given up for the Hamilton plane and the three lives that depended upon its safe flight. It looks as if disaster has befallen Old Glory and its three occupants. The cost of this stunt flying also may be brought home to Canada unless the Sir John Carling with her two Canadian airmen has been more fortunate than now appears possible.

To repeat the question which now is being asked everywhere: What is the use of this stunt flying? Some time in the distant future a non-stop flight between Ottawa and London, or between New York and Paris, may be as safe as anything which depends upon so many factors can be considered safe; but it appears to the layman if at all too much effort and too many lives are being expended upon much that can not be of real value. To quote Mr. Walter J. Kendrick, a Canadian aeroplane designer who recently has returned from Europe from an intensive study of aviation there, "adventure has run too far ahead of science." In other words, aeroplane design has not reached a point where gasoline will sustain a plane on a flight of 2,000 or 3,000 miles with any degree of safety. Lindbergh's case was quite different. He was alone, used to long flights, and he knew he had a machine that was perfect in every detail. He was successful; but he sounded his warning when he returned to the United States. The non-stop flight over the ocean still was in the realm of adventure, risky to a degree, and should not be pursued until after more could be discovered about it than is known now.

Practical progress in long-distance flying can be promoted, experts tell us, without courting tragedy over oceans. Even in twenty years from now, however—unless scientific development shall have the effect of considerably changing average mentality—there will be few people who will prefer to fly more than two thousand miles over the Atlantic, for instance, when, as in the case of Alcock and Brown, it is only necessary to cross about sixteen hundred miles of ocean between two points in the Old and New Worlds.

## TAG DAY FOR THE SOLARIUM

ON SATURDAY OF THIS WEEK A TAG day will be held for the purpose of obtaining funds for the Solarium at Mill Bay. We assume that it is not necessary to explain at any length the fine work which is being carried on at that institution. Since its doors were opened some time ago many a child taken in there to be treated for some kind of deformity has gained health and strength and now is able to look into the future without fear of physical handicaps.

Victorians always are generous when appealed to for any good work. We feel sure that the Solarium, the hope of the unfortunate crippled child, is assured of a very liberal response on Saturday. Every donation, whether large or small, will be appreciated and donors may rest assured that the authorities at the Solarium can find good use for every cent contributed.

## THE NEW GRAIN RATE

BRITISH COLUMBIA MAY NOT HAVE succeeded in getting as large a reduction on the grain rate to the West as it had hoped to get; but the latest order of the Board of Railway Commissioners—which brings the cost of transportation down to twenty cents per one hundred pounds—will be of very considerable benefit and a new impetus for the western movement.

During the course of a speech in Vancouver the other day Mr. G. G. McGee, K.C., who has handled the freight rates case for the Government of this Prov-

ince, declared that if the order is carried out, something like 75,000,000 bushels of grain will pass through the port of Vancouver this year. This will represent a striking advance over last year's business and it may be taken as an encouraging sign of business for the elevator which soon will be built at this port.

As Mr. McGee pointed out in his address, the greater use of the western route for the distribution of grain to the markets of the world will mean greater agricultural development in those areas whose natural water outlet is the Pacific Coast. And as the use of the ports of this Province continues to increase, so will other forms of expansion take place.

It is interesting to note the progress which British Columbia has made in its claims for a lower rate on the transportation of grain to our own coast ports. Only as recently as 1921 the charge was thirty-one cents per hundred pounds, a figure which prevented us from getting but a very meagre share of the business. Since then, however, persistent efforts have been made by the provincial Government to get better terms, until the original schedule of six years ago now has been lowered by eleven cents.

Nor should it be forgotten at this time that much of the success of British Columbia's case is due to the unremitting efforts of the late Premier Oliver. From the time the Province presented its first claims he devoted a great deal of thought to this question. On many occasions he appeared before the Board of Railway Commissioners, and it was his one ambition to see the freight rate issue settled on terms which he considered just to British Columbia. He accomplished much, however, and the recent further reduction will be of great value to this Province.

## THE CANADIAN-AUSTRALIAN TREATY

IT IS TO BE HOPED THERE IS NO truth in the suggestion from Ottawa that the anti-dumping duty still is to be applied to Australian butter. Australia already is beginning to talk of using it as an argument either for considerable modification of the trading arrangement between the two countries or for the abrogation of the Treaty altogether. When Hon. Mr. Pratt, the Commonwealth's Minister of Trade and Customs, was in this Province recently he sounded this warning.

Such a development would be very unfortunate for this Dominion. For the twelve months which ended on July 31 we sold to Australia goods to the value of \$18,434,208 and bought goods from her to the value of \$5,761,820. The figures for the previous year were \$16,715,591 and \$3,979,954 respectively. The one-sided interchange is at once apparent and shows how much the better of the bargain Canada is getting. It was intended that the Treaty should produce a more even division; but it has done very little in the twenty-three months of its operation, and will have less chance of doing so if Australian butter still must be penalized by the anti-dumping duty. We agree with The Vancouver Province when it says:

If the Australian butter was seriously competing with Canadian butter, depressing its price or driving it from its natural market, there might be an excuse for the action of the authorities. But there is no evidence of this. We make butter in the Summer and ship large quantities to the British market. In the Winter we import a lot of storage butter. Not infrequently we run short, and on more than one occasion have been compelled to bring back our own butter from England at the stockmen's banquet held during the Vancouver Exhibition. Hon. W. R. Motherwell, Minister of Agriculture, complained of the low production of the average dairy cow in Canada and spoke of the necessity of bringing her output up to a more profitable basis. Even then, he said, we shall have difficulty in supplying our own market with butter.

In the light of Mr. Motherwell's view, it is to be hoped that Australia's complaint may be dealt with more sympathetically than has been the case. British Columbia is vitally interested in the successful operation of the Treaty, especially in the treatment it extends to our paper and fish, and naturally desires to increase its business with the southern Dominion.

## WHAT OTHER PAPERS SAY

## A BALL GAME

From The Toronto Star

Ottawa celebrated the Jubilee and the whole city was out on First. Then they had a poultry congress and the umpire called "Fowl." After that came the Prince, and a number of balls were called, but the Prince made a hit, and after he visits his ranch, he will make a home run.

## NEW TRADE FIELD

From The Winnipeg Tribune

The opportunities for developing Canadian trade with the South American republics have lately been pointed out by the Latin American Times. Certain difficulties, however, arise from the fact that South American export trade consists largely of things that Canada herself produces. In the case of Canadian-West Africa no such problem presents itself. Each country produces what the other wants.

## DO YOU KNOW

That on July 25, 1909, Louis Bleriot of France flew across the English Channel (from Calais to Dover) a distance of 21 miles in 37 minutes. At that time this was the longest flight ever made and was considered a very remarkable test.

## JOBS FROM GEOGRAPHY

MOUNT ARARAT, in the Holy Land, is where Noah's Ark is said to have landed after the flood. The region around the mountain has recently been disturbed by earthquakes. The inhabitants, fearful of an eruption from Ararat, have migrated to other parts of the country for safety.

## Life's Niceties

## Hints On Etiquette

1. Should relatives and friends feel called upon to send gifts to an engaged girl?  
2. If an engagement is broken should the girl return her diamond ring?  
3. Should she return all presents THE ANSWERS

1. Not necessarily, though it is a nice custom.  
2. Yes.  
3. Yes.

## Canadian Questions and Answers

ST. ANNE DE BEAUFRE

Q.—Where is St. Anne de Beaupre? A.—St. Anne de Beaupre or "La Bonne Sainte Anne" is the Canadian Lourdes, and the most famous place of pilgrimage in America north of Mexico. It is visited each year by more than 200,000 pilgrims. The village of St. Anne is on the north bank of the St. Lawrence, about twenty miles below the city of Quebec, and it is said to have been founded by Breton mariners in 1520. The Church of St. Anne was opened for worship in 1776 and created a basilica by the Pope in 1887. The relic included a statue of St. Anne (with Virgin) on anony column. This statue, with other reliques, was saved when the basilica was destroyed by fire on March 26, 1922, but were consumed, including the principles and treasured relic—a finger of the saint, when the contents of the new church (a temporary edifice) were burned on November 2, 1926.

If the Australian butter was seriously competing with Canadian butter, depressing its price or driving it from its natural market, there might be an excuse for the action of the authorities. But there is no evidence of this. We make butter in the Summer and ship large quantities to the British market. In the Winter we import a lot of storage butter. Not infrequently we run short, and on more than one occasion have been compelled to bring back our own butter from England at the stockmen's banquet held during the Vancouver Exhibition. Hon. W. R. Motherwell, Minister of Agriculture, complained of the low production of the average dairy cow in Canada and spoke of the necessity of bringing her output up to a more profitable basis. Even then, he said, we shall have difficulty in supplying our own market with butter.

In the light of Mr. Motherwell's view, it is to be hoped that Australia's complaint may be dealt with more sympathetically than has been the case. British Columbia is vitally interested in the successful operation of the Treaty, especially in the treatment it extends to our paper and fish, and naturally desires to increase its business with the southern Dominion.

DOMINION SUITS AGAINST BREWERIES ARE RECOMMENDED

Counsel Suggests to Customs Commission Taxes be Collected in Quebec

Ottawa, Sept. 8.—Recommendation that action be entered against Quebec Province's breweries in respect of an excise and sales tax and that prosecutions be entered against any individuals appearing to have committed criminal offences in connection with the camouflaging of liquor shipments from the Province was made to the Education Inquiry Commission here yesterday.

The submission, presented by R. L. Calder, K.C., commission counsel, further recommended that evidence relating to the conduct of several breweries be investigated to be submitted to the Minister of Justice. "For such action in reference to cancellation or withholding of licenses of the breweries as the findings and evidence submitted warrant."

QUEBEC COMPANIES

Yesterday's submission by commission counsel made reference to the Frontenac Breweries Ltd., Sterling Brewing Company and the Spring Brewing Company, all of which had been made, said Mr. Calder, in respect of La Brasserie Champlain Ltd., the National Breweries Ltd. and Molson's Brewery. Allegations regarding the Frontenac Breweries were made to the Minister of Justice.

When by legislation of the British Parliament and the Dominion Parliament the purchase of Rupert's Land was effected, the fees of French-speaking people to Red River that the right had been to be disregarded, fears that were fomented by a few agitators who took advantage of certain injurious proceedings preliminary to the transfer, led to the "Red River Rebellion," headed by Riel and the seizure of Red River, and the capture of Fort Garry, the commandant headquarters, in November, 1869, William McDougal, the commandant of Fort Garry, and the commandant of the Red River Expedition, Riel and his associates, was, after all, a comparatively small affair; but it had great national importance. It effectively fixed the attention of Eastern Canada upon the West, and to the call for volunteers for the Red River expedition, from the command of Col. Wolseley (afterwards Field Marshal Viscount Wolseley), which arrived at Fort Garry on August 26, 1870, to find that Riel and his colleagues in the "Provisional Government" had been found dead and the "rebellion" was ended, disclosed and strengthened the spirit of Canadian national unity.

Donald A. Smith (afterwards Lord Strathcona), of the Hudson's Bay Company, acted as administrator of the following September, when Adolphe G. Archibald, the first Lieutenant-Governor, who had traveled by way of Chicago to the end of railway construction in Minnesota, arrived at Fort Garry by canoe from Pembina. Colonel Wolseley and the regulars of the Red River Expedition left Fort Garry the next day and began their march to Lake Superior and on back to the East.

In October a census of the newly-made Province showed the population to be 11,983. Of this total 1,682 were white, 9,540 were of mixed white and Indian blood, of whom 5,707 were French-speaking, and 555 were Indians.

Other Indians numbered 11,265 on March 18, 1871. Lieutenant-Governor Archibald opened the first session of the first Legislature of Manitoba.

Mr. Bronfman testified he and his three brothers had been interested in the construction of a bridge connecting in Saskatchewan, Alberta and British Columbia, and one at Kenora, Ont. These had come largely under the direction of his brother, Sam.

"When you turn your eyes eastward—what do you have in the East?"

—what do you have in the West?"

The witness replied he and his brother

ers had been interested in two firms in Quebec province. Relying to further questions, he said they had also had concerns in the Maritime Provinces, one at St. John, N.B., two in Nova Scotia and one in Prince Edward Island.

ONE IS OPERATING

"You appear to have been rather pioneers in this chain of stores business," commented Mr. Bronfman. "How many of these companies are still operating in Canada that have been referred to?" asked counsel.

Mr. Bronfman replied that only one

—the Atlas Company in the Maritimes

—was operating.

He and his brothers were interested

in a number of firms outside of Canada, said Mr. Bronfman.

Del Monte, Sept. 8.—The triumph of Del Monte, of Portland, Ore., over Discos won him of Los Angeles in the first round of match play in the champion golf tournament yesterday. Stunned by the victory of the California amateur golf tournament yesterday, Von Elm, former national champion, was easily over the seventeen-year-old Oregon boy.

Von Elm had shown his old form on

winning low gross honors with 140, while Moe had finished well down the list. The former champion opened the tournament yesterday with flashes of his old form, and his opponent was under dog until the latter hole.

Then Moe started a drive which gave him four of the last five holes and won

the tournament.

Rudy Wilhelm of Portland played

good golf to beat Hon. Stein, 4 and 2, and Francis Brown of Honolulu defeated Captain A. Bullock-Webster of Los Angeles, 6 and 5.

Other results were: E. Chandler Egan of Medford defeated Howard Thompson of Glendale, 5 and 4; Johnny McHugh of San Francisco defeated Charley Foley of Salt Lake City, 10 and 8; Heinie Schmidt of Oakland, 10 and 8; Jack Wolf of San Francisco, 4 and 3; "Dink" Templeton of Stanford University defeated John Arnell of Los Angeles, 3 and 1; Chet Gubler of Tacoma, 1 and 0; Dr. F. Hunter of Los Angeles, 1 and 0; Charles Seaver of Los Angeles, 2 and 1; Frank Dolp of Portland beat H. P. Sixon of Pasadenas, 5 and 4.

Other results were: E. Chandler Egan of Medford defeated Howard Thompson of Glendale, 5 and 4; Johnny McHugh of San Francisco defeated Charley Foley of Salt Lake City, 10 and 8; Heinie Schmidt of Oakland, 10 and 8; Jack Wolf of San Francisco, 4 and 3; "Dink" Templeton of Stanford University defeated John Arnell of Los Angeles, 3 and 1; Chet Gubler of Los Angeles, 1 and 0; Dr. F. Hunter of Los Angeles, 1 and 0; Charles Seaver of Los Angeles, 2 and 1; Frank Dolp of Portland beat H. P. Sixon of Pasadenas, 5 and 4.

Other results were: E. ## FIRE SAFEGUARDS ADDED TO LIBRARY

New Doors and Windows in  
Fraser Institute Building in  
Montreal

Montreal, Sept. 8 (Canadian Press)—One hundred and ten thousand books, constituting Montreal's largest public library, are now being safeguarded by a new fireproof safe. For over forty years since the Fraser Institute Library was founded, the fire danger has existed, greatly retarding its expansion. At present the library is closed while fireproof book racks, doors and windows are being installed. It will not be open to the public for over two months.

Despite the fact that the Fraser Institute Library has always labored under a heavy financial handicap, being supported entirely by endowment, it now stands well in the lead of all Montreal libraries. In size and value of volumes it is far ahead of the Montreal Municipal Library, which occupies palatial quarters on Sherbrooke Street.

Monsieur Pierre B. de Crevecoeur, who has been in command of the Fraser Institute for nearly thirty years, is an enthusiastic bibliophile, a man to whom books are an abiding passion as well as a source of income. He takes a personal pride in each rare volume under his care and has its history at his fingertips.

### CANADIANA COLLECTION

Because of the manner of its development, the Fraser Institute has an unusual number of valuable books long out of print and collectors from Canada alone number 6,000, and it also boasts a special collection of art books.

Many of the most interesting volumes have been inherited from earlier libraries. Thus when the library was founded in 1885 it acquired the books of the Montreal Library, which had been in existence for a life of ten years. Later it was increased by the collections of the Mercantile Library Association and L'Institut Canadien, the last-named being of particular importance.

An honored place in this collection is occupied by a set of 100 fine bound volumes presented to the Institute by Prince Jerome Bonaparte, a nephew of the first Napoleon, when on a visit to Canada. These books are richly embossed in gold and bear the prince's monogram.

Private collections, which have greatly swelled the library of the Fraser Institute, were bequeathed by the late G. H. R. Morrison, Judge Torrence and Robertson Macaulay. A single volume from the collection of Judge Torrence recently brought a price of 43,000 francs when sold at auction in Paris.

### REQUESTS INVITED

M. de Crevecoeur points out that individuals who desire to have their share of bequeathing their treasures to the Fraser Institute because of the lack of protection against fire provided by the old building and wooden shelves. Now that every safeguard is assured to the books, he hopes bequests will be more frequent.

"Persons who loved their books naturally did not like to think of their going up in smoke," remarked the librarian. "In consequence they left their collections to the McGill University Library, which is not public. This is the only major bequest to help the Fraser Institute, which is open to all the citizens of Montreal."

When it opens in November the Fraser Institute will boast a juvenile department, which has long been one of M. de Crevecoeur's favorite dreams.

### British Labor Breaks Relations With Russians

Edinburgh, Sept. 8.—The British Trade Union Congress, in annual session here, to-day confirmed its central council's proposal to break off negotiations with the All-Russian Council of Trade Unions. A card vote resulted in 2,551,000 votes for the proposal and 620,000 against.

### FROST IN ALBERTA

Lethbridge, Sept. 8.—Frost varying from two to five degrees was recorded last night in southern Alberta following an inch of rain Tuesday night and Wednesday. At Lethbridge the mercury fell to 27° F. The Canadian reported 26°, Pincher Creek 29 and Spruce Coules 27. Late wheat in the foothill regions will be considerably damaged, it is feared, but it is believed all grain crops will be harvested. There will be considerable low grade wheat.

### PEDESTRIAN FINED

Kansas City, Sept. 8.—The familiar "drunkenness and careless driving" charge suffered a slight variation in police court here yesterday when Frank Evans was fined \$20 on a charge of "drunkenness and careless walking." Arresting officers testified Evans was intoxicated and walking from one side of the street to the other.

### Chemainus

Chemainus, Sept. 8.—The usual monthly meeting of the Porter Chapter of Imperial Order Daughters of Empire, was held at the home of Mrs. W. W. Southen Saltair on Tuesday, transportation for the Chemainus members being kindly provided by Mrs. Frank Reed and Mrs. E. M. Cook.

Thirteen members were present with the regent, Mrs. Reed, in the chair.

After the minutes had been read a financial report was given and a small balance in the bank. Ways and means were discussed of raising funds. It was finally decided to hold a whist and bridge party on October 21.

A letter was read from headquarters regarding poppies for Armistice Day, advising that the order in early so that they could be made by the veterans in British Columbia. It was decided to send the order off in one for 200 large poppies and 500 small ones; also a wreath for the Chemainus war memorial.

A special account was opened for the nation war memorial, \$5 was donated; also a donation was given in by Mrs. Gustafson for the Solarium account.

Tea was served by the hostess. Those present were Mrs. Reed, Mrs. Ward, Mrs. W. W. Southen, Mrs. H. G. Southen, Mrs. Hill, Mrs. Russell Robinson, Mrs. Goldsmith, Mrs. Gustafson, Mrs. Smiley, Mrs. Taylor, Mrs. E. M. Cook, Miss White and Mrs. O. Stevens, a new member.

## LAST PORT ANGELES EXCURSION SUNDAY

S. Olympic Will Make Final Trips on That Day From This City

The final excursion trip of the season to Port Angeles by the Ferry Olympic will be made on Sunday, according to an announcement made to-day by E. E. Blackwood, local agent for the Puget Sound Navigation Company.

The Olympic will complete its summer schedule on Sunday, running as usual throughout the day, making two round trips. The Olympic departs at 8 a.m. and 2:30 p.m., and leaves Port Angeles on the return trip at 11:45 a.m. and 6 p.m. After completing the last trip of the day the Olympic will proceed to Seattle to be tied up in Lake Union.

Capt. W. E. Mitchell, general manager for the S. Olympic Company, and E. J. Oliver, travel agent, passenger and freight agent for the line, were visitors in the city to-day.

Mr. Mitchell states auto traffic has been very good during the summer session despite the handicap of erratic weather. Besides the Olympic the Ferry Line, also, is running to Sidney, will also complete its summer service on Sunday, making the usual trips on that day. One vessel will remain in that service after Sunday, making one round trip a day between Sidney and the mainland until October 31, when conditions will govern plans for the remainder of the year.

(Continued from page 6)

### B.C. LUNCHEON DAY

On British Columbia Day the Ontario Government gave a luncheon in honor of this Province, when the main dish was some very fine British Columbian salmon, and the favors bulbs and packets of seeds. Women representatives of the World Poultry Congress at Ottawa en route from Western Canada were also present on the occasion and were cordially welcomed by Howard G. Ferguson, Premier of Ontario. The principal speaker was J. E. Lynde, assistant timber commissioner. He stated that half the Empire's timber supply grows in Canada and 50 per cent of the higher grade of this in size of logs is produced in British Columbia. The value of logs in 1916 was \$61,000,000 as compared to \$55,000,000 in 1915; that the pulp industry has increased in the last ten years from 57,000 tons to 150,000 tons; and above all British Columbian spruce had a special claim to the high regard of women for silk stockings were made from the pulpwood; that mineral production, \$70,000,000, and fisheries reached the record height of \$28,000,000.

### LAKE HILL'S SUCCESS

In the afternoon Mrs. Murray spoke to a large and interested crowd. She told of the difficulties and urgent need of markets; that British Columbia, hemmed in by mountains and open seas, was a country in itself. She appealed to the B.C. to supply these markets, stating that it is five times British Columbia's cost to produce all the lumber, stock of ornamental roses and vegetables and flower seed for Canada.

After this Canada's kitchen cooking demonstrations, showing the preparation and serving of British Columbia food products, were done by Mrs. H. M. Atkinson of B.C.

In the poster exhibit 'Lake Hill W.I.' at which won the third prize of \$15, donated by the Federated Women's Institute of Canada.

### SOCIAL AND PERSONAL

Mrs. Le Pierre, Mrs. T. B. Goodall and Miss L. Hodgkinson are among those from Chilliwack who have come over to attend the B.C. Hospital Association convention. They are staying at the Empress Hotel.

Mrs. Robert McCaug is down from Campbell River and is staying at the Empress Hotel.

Mr. and Mrs. Frank E. Roberts arrived from Toronto this morning and are staying at the Empress Hotel.

Mr. A. R. Mann, Miss Mann and Miss K. W. Ellis are members of a Vancouver party who arrived to-day for a short stay at the Empress Hotel.

## ACIDS IN STOMACH CAUSE INDIGESTION

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestives are not needed in such cases and may do real harm. Try Jarrow aside all digestive aids and instead eat from time to time a small amount of fruit tablets in water right after eating. This sweetens the stomach, prevents the formation of excess acid and relieves the burning or pain. Selected Meats (in powder or tablet form)—never liquid or milk—is harmless to the stomach, inexpensive to take and the most efficient form of medicine for stomach purges. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

## New Coats For Fall

## CHINESE WITHDRAW HIGHER PORT FEES

Demand of Nanking Government For Increase in Tonnage Dues is Abolished

Following two months of chaotic China-side shipping conditions, the twenty-five per cent. increase in tonnage dues, which have been demanded by the Nanking Government at ports under their control since August 8, has been withdrawn, plain sailing tonnage fees at their normal figure, according to cables received in San Francisco, says the shipping register.

With the cancellation of the increased dues, Pacific Coast carriers foresee the clarification of confused situations which have characterized Chinese port activity since July 11, when the first raise in tonnage tax was imposed.

Pressure brought to bear on the controlling Chinese Government by representatives of foreign shipping concerns situated in Canton is believed to have actuated the withdrawal of the tax imposition. Influence from the northern forces, which have been at the door of Shanghai for the past week in an effort to recapture the port, also affected the modification of dues, according to San Francisco carriers.

The first shake-up in the Pacific Coast-Chinese traffic came with the announcement by the Cantonese forces that, effective July 11, an increase of fifty per cent. had been imposed on all tonnage dues at all ports under their control. Protests were immediately lodged by foreign shipping interests and the Pacific Coast West-bound Conference made a tentative fifty-cent raise in rates, pending further action from the Cantonese Government.

## DALHOUSIE UNIVERSITY TO CREATE FISHERIES FACULTY WITH FEDERAL CO-OPERATION

Montreal, Sept. 8.—A special dispatch to The Montreal Star indicates that for the first time on this continent a university has expressed a desire to co-operate to the full extent of its ability, adding:

"The consummation of the proposal means a notable thing for Canada in particular and the world in general," he said.

### FISH CULTURE

Dr. Mackenzie explained that briefly, the plan was to offer a course for the degree of B.Sc., embracing all the courses in fish culture now being offered at this point. Dr. Mackenzie said he was very firmly of the opinion that the Canadian fishing industry could not make the progress it should make and be a serious competitor in world markets until the great benefits of scientific research in the matter generally recognized, and scientific methods put into operation in the whole industry.

### B.Sc. (FISHERIES)

Halifax, Sept. 8.—Dr. A. S. MacKenzie, president of Dalhousie University, stated the proposal to establish a course leading to a degree of B.Sc. (Fisherries) in co-operation with the

7,241 Bales of Raw Product  
on Trip From Orient

Lieut. F. R. Nixon of Victoria  
Returns Home From Navy  
Service in East

Establishing a new record for silk carrying this year by the Blue Funnel Line, the Prote Silaus, Capt. T. G. Wilkinson, arrived here from the Orient at 8 o'clock last night with 7,241 bales of the raw product. It is the largest shipment of silk to pass through Victoria this season and is valued at over \$700,000.

The Prote Silaus had a very smooth trip across the Pacific with her valuable cargo intact, according to Capt. Wilkinson. A little fog was encountered but the sea was unusually quiet throughout the trip.

The ship brought a passenger list of 126, including three first cabin.

### MAKARUNA, M.A.T.T.

Lieut. F. R. Nixon of the British Navy, a local man, returned to his home on furlough aboard the vessel. He has been with H.M.S. Invictive in Chinese waters and was formerly with the H.M.S. Hood when that vessel was at anchor.

The larger warships in Chinese waters are not having much to do at the present time, said Lieut. Nixon.

Owing to their large draught the big vessels are inactive.

Lieut. Nixon will probably remain at his home in Oak Bay for several weeks, returning before returning to join his ship.

### NO END IN SIGHT

H. Reinicke, who is on his way to San Francisco, accompanied the vessel to Vancouver. Mr. Reinicke has just left China where he is in business and expressed the opinion that there was no end in sight for the Chinese civil strife. Uncertainty of conditions is still evident but his resumption of foreign business here, he said.

The other cabin passengers was L. S. Lord, who continued to Vancouver with the vessel.

Of the 126 steerage passengers aboard the vessel forty Chinese disappeared at this port, the remainder going to Vancouver.

The Prote Silaus brought a total cargo of 7,000 tons on her eastward trip and a large mail shipment. No cargo was discharged at this port but 250 bags of mail were set down, including several bags of airmail.

The third vessel in the new Donaldson Line service to this coast from the United Kingdom will be the Modavia, arriving September 28. Rittert Consolida-

ted are informed.

## Wages of 18,000 C.N.R. Employees Will be Determined

Winnipeg, Sept. 8.—Contracts affecting wages and working conditions of 18,000 sleeping and dining car employees of the Canadian National Railways will be signed by officials of the system within the next few days and the schedule will be put into effect immediately, becoming retroactive from September 1.

This announcement was made by R. Dykes, Winnipeg, general chairman, western region, Canadian Brotherhood of Railroad Employees.

### CHARLOTTE TO BE DOCKED TO-MORROW

Damaged C.P.R. Vessel Arrived This Afternoon in Tow of Salvage King

Will be Docked in New Esquimalt Drydock For Survey To-morrow Morning

St. Princess Charlotte, which struck the Esquimalt Rock Sunday, went to the drydock this afternoon at 3 o'clock in tow of the Pacific Salvage Company's vessel Salvage King. She was taken direct to the outfitting wharf at the new Esquimalt drydock, where she will be docked to-morrow for survey.

T. C. Markman, newly appointed representative of the London Salvage Association on the coast, successor to the late Capt. W. H. Logan, will be in the city to-morrow to survey the vessel. It was announced by A. C. Burdick, Mr. Markman has his office in Vancouver.

The larger warships in Chinese waters are not having much to do at the present time, said Lieut. Nixon.

Owing to their large draught the big vessels are inactive.

Lieut. Nixon will probably remain at his home in Oak Bay for several weeks, returning before returning to join his ship.

## FIVE VESSELS DUE HERE FOR LUMBER SOON

Will Load Nearly 3,000,000  
Feet For World Ports at  
Local Mills This Month

Nearly 3,000,000 feet of lumber will be shipped from Victoria mills this month by five different vessels, according to information given today.

The Canadian Pacific Sound Lumber Company will be the heaviest shipper with over 2,000,000 feet consigned to various parts of the world.

St. Tojin Maru will be the first of the fleet to arrive. She is due here Monday and will load 1,000,000 feet of Japanese lumber for Japan. Of this amount 250,000 feet will be from the C.P. and 110,000 feet from Moore and Whittington Lumber Company.

On September 20, S. British Monarch will be here to take on 600,000 feet for the Atlantic and Pacific cargo to be supplied by the C.P.

The other vessels due toward the end of the month to load from the C.P. are: Ss. Tacoma, which will take 600,000 feet for Yokohama; Ss. Kirkcudbright, to load 400,000 feet for Cape Town; South Africa, and Ss. Miller which will take on 450,000 feet for Quebec.

A total of 454 ships of 721,637 registered tons, were handled inwards and outwards at this port during the month of August, according to figures prepared by the Customs Department, and given out by A. S. Todd, industrial advisor.

The August figures show a considerable gain in the number of vessels calling, and bring the total for the last six months to 2,105 vessels of 5,826,161 registered tons.

During August 200 vessels, or 546,705 registered tons, were handled outwards inwards the above 215 ships of 580,961 registered tons calling at the port.

The following are the number of the ships with the registry and tonnage outward during August: Italian registry, one, of 1,064 tons; United Kingdom, four, of 1,020 tons; Canadian, eighty-three, of 82,870 tons; and United States, 111, of 170,364 tons. Inwards: Japanese, 49,859 tons; Dutch, one, of 4,796 tons; United Kingdom, eleven, of 67,096 tons; Canadian, eighty, of 1,020 tons; and United States, 113, of 172,181 tons.

The record for the six months ending August is as follows: March, 272 ships, of 442,229 tons; April, 260 ships, of 410,938 tons; May, 304 ships, of 392,368 tons; June, 392 ships of 600,394 tons; July, 415 ships, of 765,635 tons; and August, 224 ships, of 721,637 tons.

The record for the six months ending August is as follows: March, 272 ships, of 442,229 tons; April, 260 ships, of 410,938 tons; May, 304 ships, of 392,368 tons; June, 392 ships of 600,394 tons; July, 415 ships, of 765,635 tons; and August, 224 ships, of 721,637 tons.

The record for the six months ending August is as follows: March, 272 ships, of 442,229 tons; April, 260 ships, of 410,938 tons; May, 304 ships, of 392,368 tons; June, 392 ships of 600,394 tons; July, 415 ships, of 765,635 tons; and August, 224 ships, of 721,637 tons.

The record for the six months ending August is as follows: March, 272 ships, of 442,229 tons; April, 260 ships, of 410,938 tons; May, 304 ships, of 392,368 tons; June, 392 ships of 600,394 tons; July, 415 ships, of 765,635 tons; and August, 224 ships, of 721,637 tons.

## OBITUARY

The funeral of Arthur Ernest Johns, who passed away last Monday, took place yesterday afternoon at 2 o'clock from the Sands Funeral Chapel. The casket was covered with many beautiful floral tributes. The hymns sung were "Nearer, My God, to Thee" and

"Forever With the Lord." Rev. W. J. Sippell and Rev. J. F. Westman officiated. The pallbearers were: T. C. Johns, G. S. Johns, C. S. Gonnason, I. E. Lowe, W. J. Sturdy and R. Meldrum. Burial was in the family plot at Ross Bay Cemetery. Mrs. Johns, who is the youngest daughter of Mr. and Mrs. Walter Dandridge, 7th Street, survives.

The funeral of Henry Johns, who died in Lec, B.C., last Sunday, will take place on Saturday afternoon at 3:30 o'clock from the Sands Funeral Chapel. Rev. F. A. F. Daniels will officiate. Interment will be made in the family plot at Ross Bay Cemetery.

The funeral of the late George Poynter-Clayton will take place from McCallum's Funeral Home, corner of Johnson and Vancouver Streets, on Friday afternoon at 2:30 o'clock. Rev. T. E. Rowe will conduct the service, after which interment will be made in the Royal Oak Burial Park.

The funeral of Mrs. Mary Russell, who passed away on September 7, at her residence, Keating, B.C., will be held Friday at 1 o'clock. She was seventy-two years of age and was born in Peterhead, Scotland. She has lived in this Province for forty-five years. Rev. R. V. Lee will conduct the service, after which remains will be laid to rest in the Royal Oak Burial Park.

NO ELECTION THIS YEAR PRINCE RUPERT CONSERVATIVES SAY

Prince Rupert, B.C., Sept. 8.—The Skeena Conservative Convention to nominate a candidate for the Provincial House, which met last night, decided to defer nomination, taking the view that there will be no election this year.

This ceremony, which will be attended by local military representatives, besides a detachment of blue jackets from H.M.S. Colombo, which is in port, marks the completion of Esquimalt's tribute to her war dead.

Following the unveiling of the new monument, His Honor will give a short address, which will be preceded by a prayer of dedication by Rev. Canon H. W. G. Stockton.

Rev. F. C. Chapman will also give a prayer of remembrance during the service and a silent tribute will be paid to the garrison dead of the Empire.

The band of H.M.S. Colombo will provide music for the singing of several hymns during the service.

## NEWS IN BRIEF

The City Police Commission is considering the establishment of trial safety zones for street car passengers at Douglas and Fort, and Douglas and Yates Streets, it is stated. A conference between the Commission and officials of the B.C.R. Company is expected to settle final details in connection with the plan.

Mass. Singh, charged with using threatening language, was remanded in the city police court this morning until next Thursday until he should have had time to prepare his case. The language which he is alleged to have used would "fill her full of lead." He will have counsel represent him at his hearing.

The preparatory service of the George Presbyterian Church, Tillicum Road, will be held on Friday evening at 8 o'clock, and those who are desirous of becoming members are asked to be there at 7:30. Our communion service will be held on Sunday morning at 11 o'clock. The pastor, Rev. Daniel Walker, will be the speaker at both services.

Mrs. Nellie Anderson, charged with keeping beer for sale at her home on Tillicum Road, was found not guilty when she appeared in the Victoria police court this morning, and Magistrate Jay dismissed the case. H. A. MacLean, K.C., appeared for the defendant and C. L. Harrison presented the case for the prosecution. After a brief consideration of evidence, His Honor declared that it was insufficient to warrant a conviction.

A joint meeting of Ward Two and Ward Seven Conservatives, will be held at the Burnside Bowling Club Hall, at the intersection of Burnside and Tillicum Roads, on Saturday, September 15, at 8 o'clock. Short addresses will be given by Hon. S. F. Tolmie, M.P., and T. G. Coventry, M.P.P. There will be a short musical programme and refreshments will be served. This meeting is being held to give Dr. Tolmie an opportunity to meet his supporters in Wards Two and Seven.

As a result of the outbreak of the schools, which opened September 1, have been closed for at least ten days on the request of Dr. J. A. Alton, local health officer.

LaCombe, Alta., Sept. 8.—Public school picture shows and dance halls have been closed in LaCombe. The town was placed under rigid quarantine owing to the prevalence of infantile paralysis in the town.

While as yet only five or six cases are in evidence, the LaCombe Health Officer, in accordance with his directions, issued a district quarantine order should be issued, and that no public gathering of any kind should be allowed until such time as the outbreak should subside.

Victoria won a warm friend in the recent visit here of Magistrate W. W. O'Brien of Port Arthur, as the following excerpt from The Port Arthur News Chronicle shows: "I found Victoria to be an admirable, a safe and thriving city, so different to what I had been led to believe. If I was to leave Port Arthur to make my home at any other place in Canada, I would pick Victoria." Magistrate O'Brien was accompanied on his recent visit by his daughter, Miss Breda, and met many friends in the city who came originally from the twin cities of the Great Lakes.

Seven new teachers have been appointed to the staff at the Victoria High School as follows: Miss Gandy, B.A. (U.B.C.); instrument in French; Miss Elia G. Cameron, B.A. (U.B.C.); mathematics; Frank Charnley, B.A.C.; science master; Henry D. Dee (U.B.C.); history and English; Miss Gertrude Langridge, B.A. (U.B.C.); French; Miss Grace E. Smith, B.A. (U.B.C.); economics and Smith; Miss Isabel McLean, M.A. in Latin and history of New Brunswick; Latin and history of the late John Mudie will take place to-morrow afternoon, leaving the B.C. Funeral Chapel at 3 o'clock and proceeding to Christ Church Cathedral for services at 8:15 p.m. Interment will be made in the Royal Oak Burial Park.

The late Mr. Mudie passed away in the Provincial Jubilee Hospital on Tuesday afternoon, where he was taken following a relapse from an illness which he incurred at Cranbrook about two months ago, and which necessitated his removal to the hospital.

A total of 1,100 students are now registered at the High School with a teaching staff of forty-five.

The funeral of the late John Mudie will take place to-morrow afternoon, leaving the B.C. Funeral Chapel at 3 o'clock and proceeding to Christ Church Cathedral for services at 8:15 p.m. Interment will be made in the Royal Oak Burial Park.

The funeral of the late Sir Arthur Milligan, who died on September 7, at his residence, Keating, B.C., will be held Friday at 1 o'clock. He was seventy-two years of age and was born in Peterhead, Scotland. He has lived in this Province for forty-five years.

On the outbreak of war, Mr. Milligan enlisted and served with the first contingent under Sir Arthur Currie.

He was taken prisoner at the second battle of Ypres, being in Germany until after the Armistice.

After returning from overseas, Mr. Milligan became interested in mining and became a partner of Sir Arthur Currie's at the Newmarket Gold Mine. Later he took up surveying and engineering, and became a member of the firm of Gray and Milligan Bros., his activities taking him largely to the northern part of the Province.

## Game Plentiful For Opening of Hunting Season Week To-day

Blue Grouse and Deer Will Become Lawful Next Thursday

## Pheasants Are Scarce Owing to Large Numbers Being Killed by Horned Owls

With game plentiful on all parts of the Island the 1927-28 hunting season will be opened next week. Hunters will now have clearance on their guns and laying in a stock of ammunition, so that from daylight until dusk next Thursday the popping of shotguns and rifles will be heard in the woods.

Blue grouse and buck deer come into season next week, and with lots of game about the Island will be reported by most hunters. Deer are exceptionally plentiful this season as a result of the protection afforded the does of late. All summer people out in the woods have seen lots of deer, and one party who made a trip into Jordon Mallow counted sixty-two in one bunch.

Through the fact that there are so many deer it is expected the majority of the hunters will seek them on the opening day. There is dissatisfaction among many hunters through the season opening a day earlier. In previous years the first day has always been on Saturday, and this has permitted a week-end for the nimrods.

Blue grouse will be lawful game in any district on the Island, with the exception of South Saanich. They will remain unlawful until October 31, except in the Highland district, when the closing date is September 30. The bag limit on blues is five a day.

Deer will be in season until December 15, except in the Highland and North and South Saanich district when the season will close on October 31.

## WILLOW GROUSE

Willow grouse come into season on the Island on November 1, and remain in season until November 30. These birds are not lawful in the Cowichan, Chemainus and Diego districts.

Quail come in and close on the same dates, and may be shot in all districts except the Oak Bay municipality.

## PHEASANTS VERY SCARCE

Pheasants (cock birds only) which come into season on October 15, are very scarce this year owing to terrible depredations made by the horned owls, who came to the Island from the mainland. In the Cowichan, Chemainus and Diego districts, pheasants were killed off by the owls and, as a result, hunters will have a hard time getting a good bag of these birds. Pheasants will be in season until November 30.

Six birds a day is the bag limit on pheasants with a total of twenty-five for the season.

European partridges are fairly plentiful this year in the North and South Saanich districts. They become lawful game on November 15, and go out of season on November 30.

## HORSE RACING

New York, Sept. 8.—Valorous, quoted at 6 to 1 in the betting, gained a head victory in the Manhattan Handicap, feature of yesterday's card at Belmont Park. Valorous put on one of the flashiest finishes of the year. It was his first race in the silks of the Hambletonian, which he sold recently for Harry Payne Whitney.

Kiev, in J. E. Widener's silks, was second, and Osmond, also owned by Mr. Widener, was third; Black Maria was fourth, and Whiskery, the 1927 Kentucky Derby winner, fifth. The time was 1:37 2-5.

Osmond made the race on the stretch where there was a general cleaning. Valorous rushed up on the inside and won in a hard drive. The race was worth \$3,975.

Rothemel captured the six furlongs event for three-year-olds and up at Hazelwood, with Pigeon Wing second and Iron Man third. The winner's time was 1:14 4-6.

Hotheemel captured the six furlongs event for three-year-olds and up at Hazelwood, with Pigeon Wing second and Iron Man third. The winner's time was 1:14 4-6.

Hotheemel captured the six furlongs event for three-year-olds and up at Hazelwood, with Pigeon Wing second and Iron Man third. The winner's time was 1:14 4-6.

The mile feature at Dade Park went to Wadsworth, whose time was 1:40. Duxbury Dividend took the place from War Franc.

ENGLISH CRICKET

London, Sept. 8.—The M.C.C. vs. Kent cricket fixture got under way at Folkestone yesterday. The M.C.C. batted first and Middlesex made 116. Wright, the Kent bowler, captured two wickets for 16. Kent had scored 17 for the loss of two wickets when stumps were drawn.

The match between the M.C.C. team which is to tour South Africa this winter and C. I. Thornton's eleven, at Scarborough, was begun yesterday. Little progress could be made owing to rain. The M.C.C. team had, however, lost three wickets for 61 when play was called.

## BULL MONTANA LOSES

Tacoma, Sept. 8.—Jim London, California's top pitcher, defeated Bull Montana, Los Angeles, by winning two falls in the main event of a wrestling show last night.

## A QUICK KNOCKOUT

San Francisco, Sept. 8.—Johnny Boston, Honolulu's welterweight, knocked out Jack Silver of San Francisco in the first round of a scheduled ten-round fight at National Hall last night.

## WON THE DECISION

Oakland, Cal., Sept. 8.—Pedro Torres of Panama won a six-round decision over Eddie Hadden, local bantamweight, at Oakland Auditorium last night.

## WILD RECEPTION FOR YOUNGSTER

BETTY NUTHALL.

## LACOSTE BEATS JOHNSTON IN DAVIS CUP MATCH EASILY

Philadelphia, Sept. 8.—France scored the first victory in the challenge round of the Davis Cup series here to-day, when Rene Lacoste defeated "Little Bill" Johnston of San Francisco, in straight sets, 6-3, 6-2, 6-2. Lacoste played wonderful tennis and had Johnston on the defensive all the time. It was the first time that Johnston has been beaten in a Davis Cup match in seven years.

Henri Cochet, another spectacular Frenchman, meets "Big Bill" Tilden in the second singles matches to-day.

The doubles will be played to-morrow and the last two singles on Saturday.

## Giants Now Within Half Game of Lead In National League

Pittsburgh's Colors Lowered By Cincinnati, While New York Were Idle

Ruth Again Whole Show in American League by Banging Out Two Homeruns

New York, Sept. 8.—Pittsburgh's lead at the top of the National League stood at only one-half game to-day and the New York Giants, the only club among the four contenders to be idle yesterday, gained more ground in the dash toward the pennant.

Chicago Cubs and the world champion St. Louis Cardinals failed to grip again in St. Louis and the net result was a standstill. Frankhouse, rookie pitcher, held the Cubs in check in the first game of a double-header and St. Louis won 6-2. In the second game, Hahn gave the Cardinals only seven hits and beat them 8-4. St. Louis, in breaking even, held third place over the Cubs.

## PIATES ERRATIC

In answer to questions by reporters, however, she confessed that American flappers were "very nice, very free and easy, but had grown up too early." American men, she thought "awfully nice" but complained that they so seldom wore evening dress. When asked whether any of the team had become engaged to American men, she replied: "No, nothing funny like that."

## AT THE THEATRES

"WHISPERING SAGE"  
THRILLING DRAMA  
COMES TO COLUMBIA

The Basque sheep-raisers of the beautiful Pacific southwest, sturdy pioneers who came to America from the distant ranges of the Spanish Pyrenees, gave Buck Jones, Rex Film Star, his original idea for the thrilling drama "The Whispering Sage" now showing at the Columbia, which has been built by Scott Dunlap upon the story of Harry Sinclair Drago and Joseph Noel.

Buck, in his ramblings over the Western plains, early came into contact with the Basque lawbreakers and returned to the southwest from time to time to their domain. In the face of steady persecution upon the part of unscrupulous ranch owners and managers, his sympathies were always with the pioneers.

MEN OF COLOMBO  
SEE PERFORMANCES AT  
COLISEUM TO-NIGHT

The management of the Coliseum Theatre is pleased to say that a large number of the crew of H.M.S. Colombo have accepted an invitation to view this evening's performances. The boys are interested in a happy ending to the picture, "Lights of London," was taken right back home and should give them a taste of Old England again.

The usual full vaudeville and picture programme will be given, and George McEwan, who is here from Vancouver this week, will be on hand for a fifteen minutes social time with the boys with community singing, etc. There is of course nothing of a private nature in this entertainment, the general public being invited as usual.

An interesting added feature this week at the Coliseum is the showing of "The Canadian News Weekly," which is a week's devoted publication of Canadian and European news. This will be a regular feature on the Coliseum programme from now on. The vaudeville this week is easily the best ever offered at this house. Baby Olar with her contortion act and her trained dogs are going over big. George McEwan, singing popular numbers, is a personality which is winning him many friends here. Harry McMasters offers a single comedy singing act which is very entertaining, and last, but by no means least, is the dramatic sketch, "And the greatest of these is —," presented by Harold Bechtel, with Eddie Stephens and Will Marshall in the cast.

Just before her lamented death, the late Gene Stratton-Porter, author of "The Magic Garden," and this story has been made into a photoplay, which may now be seen at the Playhouse Theatre. This story had not been published until recently when it first appeared in a serial in McCall's magazine, and now coincident with the release of the picture, it is being given to the public in book form.

Those who have read the stories of the late authoress, beginning with the now immortal "Freckles," have shown a keen interest in the filming of three of her most popular books, namely, "The Girl of the Limberlost," "The Keeper of the Bees," and "Laddie," just recently released.

The absorbing and thoroughly human characters of "The Magic Garden," have been brought to the screen in a vivid and colorful fashion against a background of enchanting beauty. The author's direction is creditable to J. Leo Mehegan, son-in-law of the late authoress, who is also responsible for

"BEA GESTE" PLAYS  
AT CAPITOL WITH  
STIRRING SETTINGS

All the comforts of home are now available on the desert in Arizona—providing you are on location with a motion picture company.

The endless giant sand dunes in Arizona along the Mexican border were turned into a modern tent city for three months during the filming of the strenuous "Sahara" scene of "Bea Geste," a thrilling mystery story of the frontier, which is now showing at the Capitol Theatre this week.

One hundred and twenty-five cooks prepared and served meals for the 2,000 men in camp—the best food obtainable with fresh vegetables and fruit.

All the tents were flooded—because of snakes and other unfriendly desert insects.

The camp included:

Five post offices with mail delivered from Yuma each day.

A large recreation tent for card playing, radio recitals, and concerts by the company orchestra.

A well producing 50,000 gallons of water daily.

A telephone system connecting various important points—headquarters, horse corral, property department, important sets, hospital, mess halls and wardrobe department.

Water pipe to within a few feet of every tent.

Eighteen shower baths.

An electric lighting system.

A hospital with physicians and nurses.

A tennis court and a baseball diamond.

Trouble Signs  
For Those Past 40

Bladder Weakness, Nervousness, Headaches, Frequent, Painful, Severe Urination, Getting-up Nights

The embarrassing appearance and genuine misery of Bladder Weakness, often brings "discomforts of old age" to those who really ought to be in the very prime of life.

Concern themselves with the onset and course of fever near middle life are natural factors of Headaches, Nervousness, Pains in back and down through groins, frequent and scanty and painful urination—Getting-up Nights.

While serious, if neglected—it is ordinarily a simple matter to relieve these troubles by a treatment that can be used. Do not let URATABS, which have been so victorious in thousands of cases, after other treatments have failed.

No wonder how serious or of how long standing your condition may be, you can quickly prove the value of URATABS without risk of cost—for any good druggist will supply you with an estimate and will supply you with money back if URATABS bring you quick and certain comfort, you will be greatly pleased.

If they do not fully satisfy, then call in your physician. The TABS to-day, and see what a difference they make.

## Wall Street TO-DAY

### Last Minute News on Stocks and Financial Affairs

Wall Street Journal's Review of To-day's Stock Market Over B.C. Bond Corporation's Direct Wire to The Victoria Times

New York, Sept. 8.—The evening edition of the Wall Street Journal says: "Brokers reported broadening public participation in the market. Orders from all parts of the country was a stimulating influence. With railroad traffic at the highest level of the year and the steel industry showing marked improvement was the real reason for the strength shown in some of the leaders. Another factor in the buoyancy displayed by stocks of this kind was the widespread ease of money. It is now a question of time until Milwaukee and San Francisco will lower their bank rates."

The entire Federal Reserve may be considered to be on a 3% per cent basis, indicating the abundance of money available for Fall business. Steel stimulated bullish enthusiasm by its impressive behavior. One of the most remarkable in the history of Wall Street is now operating in Steel, and they say that Steel has never really had the chance to advance on account of the past policy of paying small dividends.

Stockholder continued the upward streak yesterday, rushing to new high ground for the year. Reports were in circulation that a strong pool had been formed in this stock.

Postum reached new high for the year. Postum is expected in the not distant future to increase its dividend to 50 cents. The time of acquisition of other companies among them being Royal Baking Powder.

Rubber stocks receded Goodrich declining over two points to 75%, and U.S. Rubber losing one-half point at 54%.

For many months the public has left the rubber stocks alone, but there is evidence that this attitude has changed.

## LIEUT.-GOVERNOR HONORS PIPE BAND

Presents Silver Medal Suitably Engraved For Most Deserving Member

The secretary-treasurer of the Canadian Scottish Junior Pipe Band in receipt of a silver medal engraved with a bugle by Hon. R. Randolph Bruce, Lieut.-Governor of British Columbia, presented the medal to member of the pipe band who is most deserving of it.

While it has not yet been definitely decided it is expected that the medal will be awarded to the member of the band who has made the best progress at the Summer practice and parades for dress and demeanour at these parades, and for general proficiency. This is the second time that His Honor has shown interest in the band, the first time being a short while ago when he attended the band with a handsome set of bugles.

The Junior Pipe Band has had a most successful Summer season. Three nights each week they have played in the city, around the hotel where they have delighted the guests with their Scotch Highland air, and the ushers were Misses F. Fatt and R. Cruckshank.

The bridal party left the cathedral to the strains of Mendelssohn's Wedding March played by Harold Davis, the organist.

A reception was held at the home of the bride's parents, where the bride and groom were assisted in receiving by the bride's mother and Mrs. Billcock, mother of the groom.

Later the newly wedded couple left

## Desperate with Weeping Eczema

Mrs. H. S. Meadows, Colwood, Victoria, B.C., says: "I really was desperate when I started using Ovelmo. I had had Weeping Eczema for two years, and you can understand how I felt with two babies to attend to, and three Ovelmo treatments, which cleared my system of Eczema as I have not been bothered with skin trouble in many years for ten years." Over 35,000 others say Ovelmo rid them of Eczema and other painful, disfiguring skin troubles. What a record for this internal and external treatment! Get it today. See how quickly it gives relief, soothes and heals, clears the skin. Ask your druggist. Results or money back.

A reception was held at the home of the bride's parents, where the bride and groom were assisted in receiving by the bride's mother and Mrs. Billcock, mother of the groom.

Later the newly wedded couple left

for Banff and Lake Louise, the bride travelling in a smart green coat and hat en suite.

Among the many useful and handsome gifts was a silver tea and coffee service from the Victoria branch of the Marine and Fisheries Department and a china tea set from the Freight Department, C.P.R., where the groom has been employed many years.

Aluminum Company of Canada, Limited, Toronto

was attended by a large number of prospective land purchasers and the bidding for the fifty-three parcels of land put up for sale was spirited.

Out of the parcels offered eighteen were sold, realizing the sum of \$5,894.79, which amount is \$1,712.87 above the total of the upset prices on these lots.

There are still thirty-five parcels to be sold and these will be offered at a continuation of the sale to-morrow morning in the Municipal Hall, commencing at 10 o'clock.

The fifty-three parcels on sale this year is the smallest number the municipality has offered at a tax sale for many years and reflects to the credit of the prosperity of the municipality.

was attended by a large number of prospective land purchasers and the bidding for the fifty-three parcels of land put up for sale was spirited.

Out of the parcels offered eighteen

were sold, realizing the sum of \$5,894.79, which amount is \$1,712.87 above the total of the upset prices on these lots.

There are still thirty-five parcels to be sold and these will be offered at a continuation of the sale to-morrow morning in the Municipal Hall, commencing at 10 o'clock.

The fifty-three parcels on sale this year is the smallest number the municipality has offered at a tax sale for many years and reflects to the credit of the prosperity of the municipality.

Big Cut in Shortage Was  
Made by Victoria to End of  
Last Year

A table showing the liabilities of cities in British Columbia at the end of last year, contained in the report of the B.C. Inspector of Municipalities just presented to Hon. A. C. Manson, Attorney-General, shows that Victoria's total liabilities were \$19,283,223.50.

The total is made up as follows: Schools, \$1,354,948.76; streets and bridges, \$780,000; other non-revenue-producing, \$9,247,486.33; domestic water, \$4,127,023.10; sewers, revenue-producing, \$538,026.67; local improvements, \$6,150,524.36; better housing, \$146,700; total debenture debt, \$15,944,718.32; sundry outstanding debts excluding \$2,259,550. The latter includes treasury certificates \$697,505.27, issued against debentures hypothesized.

The report on sinking funds of Victoria to the same date shows the total to be \$2,364,482.97, with \$2,307,990.46 invested and \$57,932.51 in cash. The sinking fund required for Victoria is \$2,386,951.70. The city was \$22,468.73 short in the sinking fund compared with a shortage of \$67,834.89 at the end of the previous year.

They boarded the liner, flagship of the Canadian Pacific, St. Lawrence fleet, a few minutes before the gangway was cleared to be hoisted into and immediately passed to their suites, after which they mounted the bridge. At the foot of the gangway Capt. Turnbull, commander of the Empress of Scotland, greeted the travellers and personally showed them to their suites.

The liner was gaily decorated in honor of the occasion, on the departure for the visitors after their thirty-eight-day stop in Canada, while vessels in port were decked with bunting and flags of all descriptions.

**VICTORIA COLLEGE  
PLANS ANNOUNCED**

Fall Term Will Begin in Three Weeks' Time, With Supplements on September 14

Lectures in Victoria College begin on September 27, with September 23 as the final date for registrations, it is announced by George H. Deane, municipal inspector of schools.

Supplementary examinations in arts will begin September 14.

Students intending to change courses have until October 13 to make up their minds, that being the final date on which changes will be received. The Fall term ends on December 9, with examinations following from December 13 to December 22.

Professor Percy H. Elliott, M.Sc., McGill, is principal and associate professor of science, succeeding to the Dr. J. N. Paul. Other changes in the faculty announced some weeks ago include the transfer of Prof. G. A. Cunningham, B.A., of Queen's University, from the High School to the college staff as assistant professor of biology.

The faculty includes: Percy H. Elliott, M.Sc., McGill, principal, associate professor of science; Dr. J. N. Paul, B.A., LL.B., Toronto, assistant to principal, assistant professor of history and economics; J. Marr, M.A., Aberdeen, registrar, assistant professor of classics; Miss Jeannette A. Sanderson-Morgan, diploma Paris, assistant professor of French; J. A. Cunningham, B.A., Queen's, assistant professor of biology; W. H. Gage, M.A., British Columbia, Instructor in mathematics.

**Popular Couple  
United at Pretty  
Cathedral Service**

A pretty wedding was solemnized Saturday evening at 8 o'clock at Christ Church Cathedral in the presence of a number of friends when the Rev. F. H. Felt (Unitarian in name) Caroline Louisa (Felt) (only daughter of Mr. and Mrs. F. W. Thomas, 338 Simcoe Street, to Percy Drummond, younger son of Mr. and Mrs. G. Billcock, Prospect Lake Road. The service was conducted with the choir in attendance, the cathedral having been fully decorated by friends of the bride.

The bride, given in marriage by her father, looked charming in her wedding gown of soft white lace over georgette, fashioned on simple lines, with long slimy veil and orange blossoms. Her shower bouquet was of Cynara, roses, carnations and white heather. Miss Nellie Wiss was maid of honor and wore a pretty frock of coral-pink crepe de Chine, with hat to match the dress, a sheaf of pink gladioli and sweet peas, tied with silver ribbon.

The two young bridesmaids, Misses Thornton, niece of the bride, and Miss Millie Harris, wore dainty frocks of mauve and green georgette respectively, with silver bands and in the hair

Wearing this exquisite lingerie your frocks and gowns take on smarter, more graceful lines because Watson's are "tailored to fit". The youthful, slenderizing cut enhances the natural beauty of the figure.

See the vests, bloomers, pyjamas, nighties, kimonos, etc.

In finest raven and in a wide range of fascinating colors.

## Desperate with Weeping Eczema

Mrs. H. S. Meadows, Colwood, Victoria, B.C., says: "I really was desperate when I started using Ovelmo. I had had Weeping Eczema for two years, and you can understand how I felt with two babies to attend to, and three Ovelmo treatments, which cleared my system of Eczema as I have not been bothered with skin trouble in many years for ten years." Over 35,000 others say Ovelmo rid them of Eczema and other painful, disfiguring skin troubles. What a record for this internal and external treatment! Get it today. See how quickly it gives relief, soothes and heals, clears the skin. Ask your druggist. Results or money back.

and carried sprays of pink carnations. Mr. Reginald Beaumont was best man and the ushers were Misses F. Fatt and R. Cruckshank.

The bridal party left the cathedral to the strains of Mendelssohn's Wedding March played by Harold Davis, the organist.

A reception was held at the home of the bride's parents, where the bride and groom were assisted in receiving by the bride's mother and Mrs. Billcock, mother of the groom.

Later the newly wedded couple left

for Banff and Lake Louise, the bride travelling in a smart green coat and hat en suite.

Among the many useful and handsome gifts was a silver tea and coffee service from the Victoria branch of the Marine and Fisheries Department and a china tea set from the Freight Department, C.P.R., where the groom has been employed many years.
